

FINAL ANNOUNCEMENT

The International Meeting on Data for Atomic and Molecular Processes in Plasmas: Advances in Standards and Modelling will be held from November 12 to 15, 2024 at Palić, Serbia.
The venue is at “Hotel Prezident – Palić“.

The Conference program and other information are available on our website (<https://asspectro.ipb.ac.rs/2024/>).

Just a reminder:

In cooperation with the journals

- *Advances in Space Research* and

- *Contributions of the Astronomical Observatory Skalnaté Pleso (CAOSP)*

papers based upon selected lectures and posters presented at the conference will be published as Special Issues of these journals.

We welcome not only contributions from participants of this meeting, but also all original and high-quality relevant manuscripts from scientists working on above-mentioned topics. We look forward to receiving your contributions.

Looking forward to seeing you in Palić
Local organizing committee
